

Course Instructor

Tony Olson, Industrial Hygienist

Tony is the president of Safety & Health Services, Inc., which was founded in 1995. He has completed a Master of Science Degree in Industrial Hygiene from the Montana College of Mineral Science & Technology.

Tony has provided training services on a variety of topics including 8, 24, and 40-hour initial training in accordance with OSHA's Hazardous Waste Site Operations and Emergency Response Standard. He has conducted over 250 Hazardous Waste/Emergency Response courses throughout the Northwest in the past 19 years resulting in over 19,000+ hours of training experience.

Tony has acted as a spill response member for accidental releases of hazardous chemicals such as PCB oil, Sodium hydroxide, gasoline, diesel, and other chemicals. He has also served as project manager on projects related to development of safety and health programs, creation of site safety plans for superfund sites, conducting air monitoring for various contaminants, and conducting OSHA compliance audits.

Tony is a retired Captain with 20 years of service to the Montana Army National Guard. He served as a Preventative Medicine Officer and as the Executive Officer for the 83rd Civil Support Team.

Course Description

This course meets the requirements outlined in OSHA 29 CFR 1910.120 for 8 (eight) hours of annual refresher training for workers at hazardous waste sites. This course is designed for general site workers who remove hazardous waste or who are exposed or potentially exposed to hazardous substances or health hazards, such as those encountered at solid waste facilities.

The course is comprised of nine sections covering topics pertaining to workplace hazards associated with Hazardous Waste Operations and Emergency Response (HAZWOPER). Topics include HAZWOPER regulations, Site Characterization, Toxicology, Hazard Recognition, Personal Protective Equipment, Decontamination, Medical Surveillance, Confined Space Entry and Emergency Procedures.

Upon successful completion of the course you will receive a certificate of completion which is accepted by OSHA as documentation of training.

Attend in Helena or attend a two-way interactive video conference - 7 locations
